Sequins

WHITE CARD

Step by Step

LET'S CREATE

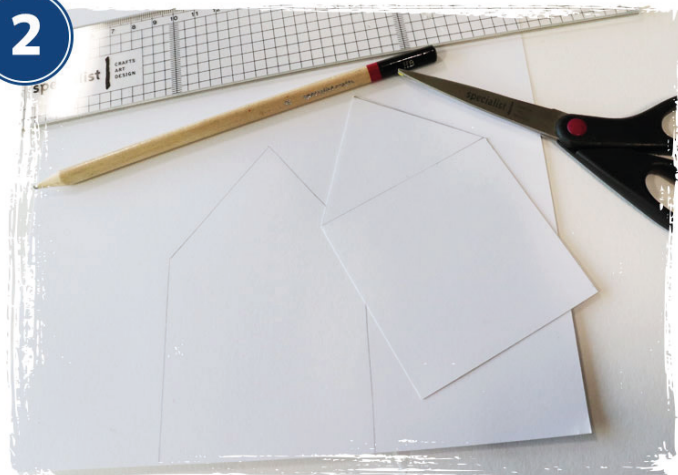

1

Prepare your workspace. You will need natural and coloured lolly sticks, broad colour pens, a pencil, ruler, scissors, white card, glitter, sequins, glue and ribbons.

2

Using a pencil, draw out a small house shape on the white card and then cut out this shape with scissors.

3

Trim down some coloured lollypop sticks with scissors and use the school glue to stick these onto your card to represent a door.

4

Measure the natural lollypop sticks against the base of the house and trim where necessary, stick these down with glue.

5

Cut a length of ribbon to use as a hanging loop. Stick this on the top of the gingerbread house roof.

6

Trim down some more coloured lollypop sticks to use for the roof, you can also add some glitter, sequins and card as windows.

7

There are endless creative possibilities with these gingerbread house ornaments. Use them as tree ornaments or on door handles for a fully festive look.
