Scissors

Step by Step LET'S CREATE

1

Prepare your workspace. You will need a cutting mat, stencil card, A6 white card, scissors, craft knife, stencil brushes, a pencil and paint.

2

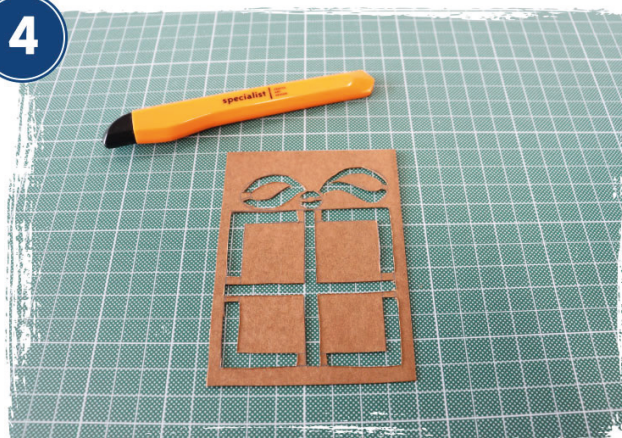

Cut your A6 white card in half and trim your stencil card down to the size of your card too.

3

Draw out a design with a pencil on your stencil card.

4

Ensuring your stencil is on your cutting mat, use your craft knife to carefully cut around your design.

5

Place your stencil card design on top of the blank card and using your stencil brush dab paint carefully into the cut-out sections.

6

Once you have finished painting, slowly peel off the stencil from the card to reveal your Christmas design. Add glitter, sequins and other decorative accessories to make your gift tags pop!
